| Objective

I am longing for the opportunity to continue my career at Dassault Systèmes.

| Skills

Robotics - Assembly | Digital Twin | Ladder | PCB Design | 3D Modeling
Throughout my college journey, I was able to gather knowledge in the field of robotics by actively participating in projects offered by Dassault Systèmes and FIAP.

Machine-Learning - Image & Text Recognition and Classification
I have acquired knowledge in supervised, unsupervised, and reinforced learning throughout my internship and annual project developments at Dassault Systèmes and FIAP.

Pre-Sales - POC & VM Preparation | Consulting | Project Management
I improved my technical skills by being part of customers and internal projects by configuring demo environments in VMs, supporting customers' technical and sales presentations, brainstorming and developing established solutions with the 3DS team.

Programming - Python | C | C++ | C# | Java | JavaScript | VB
I learned the core of Object-Oriented and Structured Languages and the logics of all resources of any language such as IFs, Loops, Functions, Etc. I have experience in both academic and business projects though my internship and graduation years.

Soft & Social Skills - Critical Thinking | Teamwork | Communication
I had many opportunities to solve problems a team and improve my soft skills in the past few years at FIAP, Dassault Systèmes, and at my family business.

| Experience

Dassault Systèmes
Internship
2018 – 2020

Main Activities
-Support the pre-sales team in the preparation of Proof of concept projects.
-3DExperience Platform configuration and customization to meet the customer's use case.
-Support Sales team providing tools to accelerate engagements.

| Education

Mechatronics, Robotics, and Automation Engineering
Bachelor's Degree, FIAP
2017 – 2021

Computer Programming, Network, Database, and Hardware
Technician's Degree, ETEC
2015 - 2016

| Language

English
Fluent, Wizard
2011 – 2016

German
Learning, Basic
ACEPUSP | Online
2020 -
